

POSITION ANNOUNCEMENT

**University of Georgia
College of Agricultural and Environmental Sciences-Tifton Campus
4602 Research Way
Tifton, Georgia 31793
(229) 386-3336**

THE POSITION OF: Research Engineer II

LOCATION: Crop & Soil Sciences Department, Tifton Campus

ANNUAL SALARY: Commensurate with education, training & experience

GENERAL DUTIES AND REQUIREMENTS:

The incumbent will be responsible for revising the NRCS Georgia Irrigation Guide. The current guide was last updated in 1984. The incumbent will meet with NRCS staff to understand their expectations. The incumbent will identify the sections of the Guide which must be updated and propose new materials to be added to the Guide. While the incumbent will work independently to do this, the incumbent will meet regularly with NRCS staff to provide updates and receive feedback. The incumbent will develop a written plan for updating the Guide which will be submitted to NRCS for approval. Once approved, the incumbent will develop the new NRCS Georgia Irrigation Guide.

EDUCATION AND EXPERIENCE:

M.S. in Irrigation Engineering or M.S. in Agricultural Engineering with an irrigation-related thesis and course work. Must have a valid driver's license.

KNOWLEDGE, SKILLS AND ABILITIES:

The incumbent will require very technical knowledge of irrigation system design as well as detailed knowledge of irrigation scheduling methods.
