

We are looking for a couple of turf students to do an internship with us this summer. We just finished up a large scale renovation of our Legend golf course, working closely with Nicklaus Design and Jack himself. We still have some work to do this summer to improve it and complete the maturation process. We have two other Nicklaus' family designs, Heritage and Tradition. The Legend now has a forward tee at 4,500 yards and it looks like this summer's project will be to build new tees on the other two courses as well.

Ibis is a big, busy place and there are lots of opportunities to learn. If you have any students that are interested in warm season grasses and would like to broaden their knowledge in an area of the country where golf is still thriving and spending money, we'd love to hear from them.

I can offer \$12/hour with some over time as well as either housing or a housing stipend.

I can be reached at this email address or the physical address listed below. My direct land line is 561 624-8944 and here is my cell as well -

C #561 662-1149.

Sincerely,

Matt Masemore
Director of Golf Course Maintenance
